What is where2?

where2 is here to change the delivery landscape of the food ordering industry once and for all. Whether you are using the system to power your own team of drivers or using the **where2** infrastructure to offer delivery to your customers, our solution is here to provide the answer.

- Delivery app for drivers
- Automatic or manual assignment of orders to drivers
- Management straight from your ProPad
- Fee splitting is done at the point of transaction
- Plugin to an infrastructure of delivery drivers in your area

where2 for Business Owners

what the fork have operated in this space for a number of years and have become a trusted name within our community. Our delivery solution has been built with that trust in mind. You spoke, we listened and have built a solution we firmly believe will change the way the industry operates.

- Transparent pricing
- Trusted by over 200 businesses
- We work with you on your delivery zones
- Have full traceability over the delivery of your orders and communicate with delivery agent.
- Join our movement of change
- Full reporting of driver journey on your Propad
- Let the driver know what time to collect orders.

where2 for Drivers

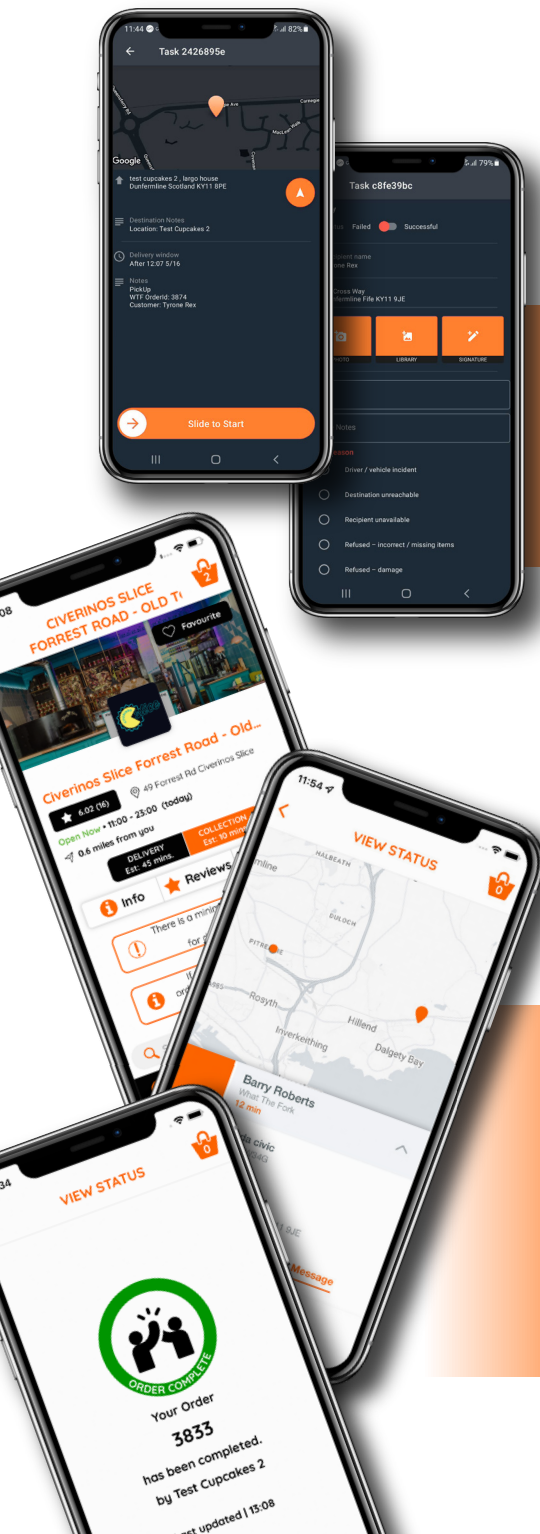

Whether you are onboarding your own fleet of drivers or using our infrastructure rest assured our driver platform will plug seamlessly into your day-to-day operations.

- Driver app with order notifications and mapping.
- Ability to pay drivers per order.
- Driver and customer communication channel.
- Proof of delivery system in place.
- Onboard drivers with ease.

where2 for Consumers

where2 provides customers a live time tracking system that operates both through your individual app and What The Fork platform. Changing the way order management is handled and saving your staff updating customers on their order process.

- Door-to-door dedicated order tracking system
- Full notification system in place
- Optional SMS notifications to customers
- Operates within your individual platform and our central What The Fork app
- Customer can contact the driver with any issues and instructions upon arrival
- Customer review system in place.
